

Genuine DEUTZ OIL

Available from Wolter Power Systems

Genuine DEUTZ engine oils

are used continuously on the test stands in DEUTZ engine development facilities. There can be no better guarantee of the suitability of these oils for application in DEUTZ engines, giving the user maximum operating safety.

The use of DEUTZ oils as a genuine part is a major advantage should you need to make a warranty claim.

That is why we recommend the use of DEUTZ oils only, for all DEUTZ engines.

The super high-performance diesel engine oil provides reliable protection against wear, deposits and sludge. Particularly resistant to ageing and with a large alkaline reserve, the longest permissible oil change intervals can be applied.

DEUTZ Genuine Heavy Duty Diesel Oil is available in SAE 15W-40 and meets DQC III-05. Please check Deutz Circular TR0199-99-3002/8 for any additional requirements.

Part number	Description
305655	Case: 12 x 1 Quart
305656	Case: 6 x 1 Gallon
305657	Quantity: 1 - 55 Gallon Drum
